

Water-proof.
Durable.
Beautiful.
Done.

Shore 

Welcome to Shore.

We went back to the drawing board and created the ultimate surface for when water is ever-present. Instead of tile and grout, we developed a single panel that's water-proof. Beautiful. Simple to install. And ready to stand up to the elements of life. It's the Shore Water-Proof Wall Panel System. And it's going to change everything.

PERFORMANCE

Water-Proof

With Shore, water-proofing is more than surface level. Beyond the panel itself, our water-proof core ensures protection runs deeper and more completely than other solutions. Making Shore ready and able to stand up to everyday use for years to come.

PERFORMANCE

Antimicrobial Protection and AEON™ Enhanced Scratch and Scuff- Resistant Performance Technology

With antimicrobial protection built directly into the surface of the shower panel, Shore is protected against the growth of bacteria, mold, and mildew that cause stains and odors.

Living with the Shore panel is easy, thanks to AEON™ Enhanced Scratch and Scuff-Resistant Performance Technology. AEON™ is proven to outperform other shower surfaces with similar finishes.

DEPENDABILITY

Low Cost of Ownership

Because it’s grout-free, it’s simple to maintain and clean. Shore is engineered for lasting beauty and a low cost of ownership. Warm soapy water and a sponge is all that is needed for regular maintenance. Shore has no grout lines to clean, and is nonporous, so sealing is never required.

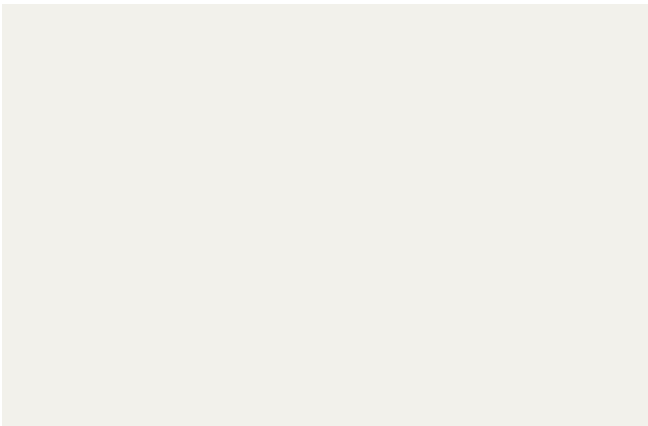

FASHION & INSPIRATION

Inspired by Nature

Shore's beautiful, nature-inspired designs are on trend and in demand. Coordinated to complement popular bath materials, they can be used wherever design meets water.

EASE

Effortless Installation and Customization

Shore can be installed in the field and does not require any special or dedicated tooling. With simple tongue-and-groove installation, the average time to install is as little as 2.5 hours.

Tongue-and-Groove

Allows customization of configurations to fit any space for a virtually seamless look.

Bullnose Edge

Beautiful, finished edge eliminates the need for edge treatments or additional parts.

Panel Configurations

Bullnose Edge + Flat Edge

- The Bullnose Edge is perfect for wing wall or terminating walls.
- Available in 30", 32", 34", and 36" panel widths
- Custom sizes available upon request

Tongue Edge + Flat Edge

- The easy to handle Tongue Edge + Flat Edge panels are ideal for a seamed back wall.
- Available in 30" panel widths
- Custom sizes available upon request

Groove Edge + Flat Edge

- The easy to handle Groove Edge + Flat Edge panels are ideal for a seamed back wall.
- Available in 30" panel widths
- Custom sizes available upon request

Flat Edge + Flat Edge

- The Flat Edge + Flat Edge panels are best for a one piece wall.
- Available in 34", 36", 42", 48", and 60" panel widths
- Custom sizes available upon request

Tongue Edge + Groove Edge

- This most flexible panel is used when you want to continue the design beyond the single panel widths.
- Available in 24" and 36" panel widths
- Custom sizes available upon request

Tongue Edge + Bullnose Edge

- This Bullnose Edge combined with a Tongue Edge is made to cap the end of the Tongue Edge + Groove Edge panels.
- Available in 8" panel widths
- Custom sizes available upon request

Groove Edge + Bullnose Edge

- This Bullnose Edge combined with a Groove Edge is made to cap the end of the Tongue Edge + Groove Edge panels.
- Available in 8" panel widths
- Custom sizes available upon request

Bullnose Edge + Bullnose Edge

- With two Bullnose Edges, the ideal panel to feature behind a free standing bathtub or a stand-alone wall.
- Available in 8", 34", 36", 42", 48", and 60" panel widths
- Custom sizes available upon request
